how much coverage do I need?

Classic6

Perfect for smaller weddings, with a small wedding party, and when prep, ceremony, and reception are all in the same place.

Heritage8

works great for medium-size weddings (guest count ~100-125) with larger wedding parties and when all the key places are fairly close by each other.

Legacy10

Answer yes to any one or more of these criteria and we're recommending this package:

- > high guest count (>125)
- > larger wedding party (>10 people)
- > multiple locations (i.e. church, venue)
- > doing a first-look
- > resort venue
- > desire for start-to-end-of-day coverage

one photographer - or two?

We've long been proponents of two photographers being more than the sum of their parts. We built our business to be where it is based on this premise. This said, we know that times are changing! One photographer may be perfect for you and your wedding.

Simpler, smaller weddings - and in some cases, even larger ones, can be very effectively photographed by a solo photographer. If you have a true professional. Unsure? Talk to us, we are happy to help guide you make the perfect choice.
