<sup>1</sup> Limited availability.

<sup>2</sup> Available at extra cost.

*You might be wondering if we only shoot in black and white? No! We shoot 100% in color, but do convert some images into black and white. We loved the looks of this catalog that way, too. Thanks to our real-life bride and groom models for pages 1-5, Koko and Joe, Ogunquit Maine, November 2019*

# Oh...those drone shots!

If you love out-of-the-ordinary and would love the chance to have artistry like this on your wedding day, again you've come to the right place.

We aim to get a shot like this at as many weddings as we can.

Use of the drone is per FAA rules and is subject to limitations such as airspace, wind, visibility, weather, and other conditions not in our control. Since we can't guarantee we can use the drone (though be assured we will always do our best to fly, (so long as you want us to!) there isn't any extra charge for it.

There may not be any extra charge, but, oh, there will be all that extra WOW!

# Degrees and certifications matter to us,. And you.

It matters that not only are your photographers full-time, year-round, professional wedding photographers, Being a *Master Photographer*, *Certified Professional Photographer*, and *Certified Drone Photographer* with the world's oldest and largest professional photography association, the Professional Photographers of America (PPA).

It's your further assurance of a professional experience from start to end. You and your wedding deserve *all* these things. **You've come to the right place.**
