These words are worth "1,000 pictures"

There are some real differences with us, and we want you to know about them. These are the things that make us who we are, and what make not just our photographs stand out from the crowd, but the entire experience of working with us, too.

✓ We are a wedding photographer **team**. The same two people 99% of the time. With our *Platinum Dynamic Duo* package, you are assured of having us both with you! Each knowing where the other will be and will go, without a word being needed. One shooting the must-haves, the other also shooting then plus finding and catching all the "between moments".

✓ We are **full-time, professional wedding photographers**. It's not a sideline. This is what we do. Period.

✓ The best **customer service** in the business. Before, during, and after. It's how we roll, without exception.

✓ **You know who your photographers are.** You're getting one or both of us (depending on your package selection), the owners of the business. We don't sub out our work to others.

✓ **We do not outsource the editing of your wedding photos.** All work stays in house with your photographers, the way it should be. It's us, start to end. We are precision editors and ensure that every single image you receive has been touched by us personally. Colors are real, clear and bright. Images we convert to black and white for artistic purposes are rich and clean.

✓ **Expert planning for a low-stress day!** The pre-wedding planning we do has served our couples, and us, well for hundreds and hundreds of weddings, time and again. Few, if any, others pay such careful attention to making a smooth, stress-free, and flexible plan for the many parts of your day that otherwise no one plans for you.

✓ The best **professional cameras and lenses** - and, yes, they make a huge difference.

✓ **Fast delivery of your wedding photos!** Our delivery is consistently unrivaled. We take the time to do high-quality editing and posting, but we adhere to the strictest internal timeframes to deliver photos in terms of days, not weeks or months.

Thanks for reading!

Oh...those drone shots!

If you love **out-of-the-ordinary** and would love the chance to have artistry like this on your wedding day, again you've come to the right place.

We aim to get a shot like this at as many weddings as we can. Otherwise, though, we don't fly the drone for much of anything else.

¹Use of the drone is per FAA rules and is subject to limitations such as FAA airspace, wind, visibility, weather, and other conditions not in our control. Since we can't guarantee we can use the drone (though be assured we will always do our best to fly, (so long as you want us to!) there isn't any extra charge for it.

There may not be any extra charge, but, oh, there **will** be all that extra WOW!

Options!

Options:

- ✓ Engagement session
- ✓ Albums
- ✓ Rehearsal / dinner coverage
- ✓ Post-wedding coverage/brunch/farewell
- ✓ Full weekend coverage
- ✓ Destinations! We serve Maine, New England, and destinations worldwide
