

A full-page photograph of a wedding couple walking on a sandy beach. The groom is on the left, wearing a black tuxedo with a white shirt and a black bow tie. He is smiling and looking towards the camera. The bride is on the right, wearing a white, form-fitting wedding dress with a long train and a white fur stole draped over her shoulders. She is holding a bouquet of white flowers and looking towards the groom. They are walking hand-in-hand. The background shows the ocean and a blue sky with scattered white clouds.

## **Award-winning and internationally-acclaimed wedding photographer now working almost exclusively in Maine!**

My wedding photography career has taken me all over the world, and I am now proud to say my work is now almost 100% right here in southern coastal and mid-coast Maine, and neighboring regions. I'm in my home state of Maine, and it is *the perfect place for your perfect wedding*. I'd love to be a part of it with you.

## A wedding photographer who's actually earned their credentials.

In a world where going to the mall and coming home with a camera kit is all it takes, technically speaking, to call one's self a "photographer", or scarier yet, a "wedding photographer", Russ' combined experience of over 20 years in the wedding industry and his earning of several photography degrees and countless professional awards means more to you than meets the eye.

It means you're working with a true professional who's earned the right to be honored with the privilege of having you as clients on the most special of days. A day where trust in the people you've hired means everything. A professional who knows photography in-and-out, but even more importantly, knows all the intricacies of weddings, and is someone you'll love working with.

In 2021, Russ was honored to become one of just 16 people in the world with the Professional Photographers of America's *Master of Wedding Photography* degree, a title still to this day held by fewer than 30 people. This in addition to his Master Photographer and Craftsman Photographer degrees, and being a Certified Professional Photographer.

Lastly, weddings aren't just something "else" we do at caron&co photography; it's virtually the only thing we do; full-time and year-round. Oh, and maybe the most important point of all: we fully respect your wedding day is *your wedding day*, it's not a photo shoot day.

*We ensure it all just works as perfectly as it can!*

## SURPRISE PROPOSALS

---

Photographing popping of “the big question” is one of the most fun sessions we photograph. But it’s also one, to do right, that takes a large amount of planning and requires experience to ensure all goes “according to plan”!

We work closely with you and your plans and vision to ensure our presence is discrete and essentially invisible to your partner, until after you’ve actually proposed.

This is the opening chapter on all that follows with your journey together, so thanks in advance for considering the importance of having a professional photograph this most significant of moments.

A mini-engagement session following the proposal and a full set of digital photos are included.

Due to the many factors involved and the uniqueness of every secret/surprise proposal, we will be pleased to send a quote when
