how'd you like to be able to 'feel' your wedding day...again and again?

PHOTOGRAPHY

BE SURE
YOUR WEDDING MEMORIES
REMAIN
UNFORGETTABLE
10, 20, 40 YEARS FROM NOW

A few reasons why including an album is one of the best decisions you can make...

...an album...

- ...is a logical extension of the wedding day experience
- ...is a tangible storybook of the day you designed from scratch
- ...lets you slow down the wedding day that went by in such a blur
- ...is the only part of your wedding that you purchase that gets more valuable with time
- ...is 'technology-proof'; no device or special effort is needed to relive your wedding photos - any time you desire
- ...is as much for future generations as it is for you today
- ...is a custom-designed tangible book you'll flip through with your kids someday - and show off at your 25th anniversary party -with a box of tissues

DOES THIS AT ALL SOUND FAMILIAR:

"we don't like having our picture taken"
"we've never done professional photos before"
"we don't know how to pose"
"my fiancé is unsure about the photo process"

▶ a 'yes' to any of these statements means an engagement session with us is going to be a perfect choice for you. Let us show you how fun we make every step of the process. Not to mention the awesome photos we'll create.
